

Hi Dara,

We pulled a proposal from the Secretary of State's filings website that is amending rule 5 of the Division of Workforce Services Rules. The title of the rule is "Identification of Covered Workers"; however, the title we have for this rule on Westlaw is "Posting of Notice to Workers" and Rule 4 is titled "Identification of Covered Workers". It seems the content being promulgated does belong to Rule 5, so I just wanted to confirm whether the title is going to be duplicated for both Rules 4 and 5 (as it currently appears within the content on the agency website) or if it will remain as "Posting of Notice to Workers" (as listed in the table of contents on the agency website)?

Thank you,  
Jamie
