

The National Career Readiness Certificate, WorkKeys, and Employers

Now more than ever, American businesses need a strong, skilled workforce to overcome today's challenges. When you ask for the National Career Readiness Certificate, issued by ACT, at your business you'll find only the most skilled employees. The Certificate is the work-related skills credential, providing objective documentation of employees' skills that can be accepted nationwide. It is composed of three WorkKeys® assessments that measure skills critical to on-the-job success.

Employers report significant results using WorkKeys and the Certificate:

Inova Health System – Virginia

- Turnover reduced from 49% to 13%
- Savings of \$1.2 million per 25% reduction in turnover
- More efficient application process
- Improved patient care

First Quality Retail (Covidien) – Georgia

- 200% improvement in training entry-level employees
- 58% reduction in waste
- 35% improvement in production efficiency
- 67% reduction in cost/time to hire

Eastman Chemical – Tennessee

- 5 year project to hire 1500 people
- Cost per hire was reduced by \$617
- Annual savings: \$185,100
- Total project savings: \$925,500

Employers across the nation use the Certificate and/or WorkKeys in their hiring processes*

Businesses that use or have used this system range from small to large and span the entire country. Usage ranges from recognition of the Certificate to full integration of WorkKeys into the hiring process.
