## WIOA Populations with Barriers to Employment

### Background:

The Workforce Innovation and Opportunity Act of 2014 serves as a catalyst for the publicly-funded workforce system to expand access to employment, training, and support services for individuals defined as “having barriers to employment”. State and Local public workforce systems must make deliberate decisions with regard to resource allocation and prioritization of adults and youth facing barriers to employment. WIOA Section 116 requires a statewide report that includes a breakout by those with barriers to employment. WIOA specifies new reporting requirements, including data reporting related to barriers to employment. The definition of an “individual with a barrier to employment” encompasses mandatory populations, as defined in WIOA Section 3(24).

Furthermore, the U.S. Departments of Labor and Education expressly forbid the establishment of practices that create disincentives to individuals with barriers to employment who may require longer-term career and training services.

**Action:**

Each Local Workforce Area must immediately provide added emphasis towards the identification, outreach, and enrollment of individuals possessing barriers to employment. This added emphasis must include, but is not limited to:

- Development of a comprehensive Local Outreach Plan geared towards increased enrollment and service delivery to individuals with barriers to employment. This includes a broadening of the current local area service delivery base to identify and collaborate with advocates for veterans and their spouses, the homeless, low-income, formerly incarcerated, single mothers, and individuals with limited English proficiency or cultural barriers. This plan will be reviewed during the annual ADWS WIOA Monitoring site visit.
- Designating staff who will serve as the lead coordinator(s) of Local Area outreach efforts to serve individuals with barriers to employment. The lead coordinator will be interviewed during the annual ADWS WIOA Monitoring site visit.
- 
- Identification of best practices in your local area that may be replicated in other regions of the State.
- Formalizing MOUs or other institutionalized practices designed to increase enrollments to individuals with barrier to employment.
