Report on TANF Program Activities: Chair Nunnally recognized Mr. Phil Harris to provide an update on TANF Program Activities starting with the federal updates before proceeding with the state updates. The TANF Reauthorization is still pending with no updates. The HR430 TANF Extension of 2019 has been extended through appropriations, through June 30, 2019. This extends the block grant to states and related assistance grants, to territories, including Puerto Rico and the Virgin Islands.

Mr. Harris provided committee members an update regarding state legislation on HB1664. It has been filed to establish the Life Choice Lifeline Program that will be operated by the Department of Health to encourage healthy childbirth or promote family formation and aid successful parenting. This week, this bill has passed in the House and Senate Public, Health, Welfare and Labor. This bill can affect TANF in the future in terms of TANF Funding and TANF Participation.

Eligibility Policy – Mr. Harris informed committee members the Income Eligibility Policy is on hold until the current legislation is finished. TANF is working with the Department of Human Services to address the issue of income eligibility standard for the TEA Program. This Policy has not been reviewed, since 1996. TANF is looking to revise this to the prevailing minimum wage for the State of Arkansas.

Mr. Harris recognized Mr. Derwin Taylor to provide an update regarding TEA Enrollments. Taylor shared with the committee that TEA enrollments have declined. Through strategic meeting discussions, participants go to DHS and apply, for some reason these potential clients never came to the Department of Workforce Services or they would get lost in the shuffle. A Pilot program is being piloted in two counties: Ashley and Pulaski County. With the Pulaski County pilot program initiated, TANF staff will be housed at DHS Tuesdays and Thursdays of each week. Mr. Taylor provided the process being used to capture individuals who may be able to utilize the TEA program. For instance in Pulaski County, when DHS has applications coming on those set days, TANF will schedule staff to visit with those individuals. TANF staff will provide additional information regarding TEA such as Requirements, Education, additional documents required, including an overview of the TEA program. In the month of March 2019, the Southwest DHS Office, in Pulaski County received 48 TEA applications. Of those applications received, 32 applicants were denied, 11 pending, and 5 approved. [Note: One of the successful opportunities for this pilot was TANF outreach information was provided to more individuals to be engaged. Mr. Taylor responded that TANF had an income limit when Mr. Thorne inquired to the number of denied applications. Mr. Taylor noted the 11 applications pending are either did not provide the proper documentation or they missed their interview, and those that were denied were based on the resource income that they already have.]

ARWINS Update - Mr. Harris thanked Mr. Taylor before providing an update on ARWINS to committee members. With the New IT Element within ARWINS, TEA will soft launch the new software component and extend to the Restore Hope Initiative (RHI). RHI will be able to login and key in information and be able to determine if potential clients are eligibility.

Arkansas Works Update - Mr. Harris informed members TANF involvements engage with referrals from DHS to work with clients for job placements and referrals to work activities. TANF forwarded 90,000 outreach emails through the IT system since the beginning of the Arkansas Works Program began. Reminder emails totaling 950 have been sent out to Arkansas Works recipients to call DHS to report on their work activities or claim an exemption. Currently, an additional email is being drafted to encourage responses in regards to reporting requests.

The TANF "Pipeline to Employment" Initiative is to create a pipeline that connects central Arkansas employers with TEA clients and low-income other workers looking to escape poverty through employment. Under this project, Our House's Career Center works closely with clients to prepare them for success in the workforce, while a newly hired Employer Engagement Manager will build an "Employer Alliance" and liaise with employers to determine their employment needs, place employees, and conduct follow up to promote retention.
